MUST REPORT TO THE CLEARING HOUSE IF THEY CLEAR THERE.

Now Rules That Treat Them as Non-Member Banks-Can't Clear Unless They liave Been a Year in Operation Some Clear Now, Some Don't-Text of Rules. In the future those trust companies of this

elty whose Items are cleared through Clearing House banks will be upon the same footing as non-member banks. They will have to make reports of their condition once a week to Manager Sherer of the Clearing House and comply with a rule providing for an examination of their assets and liabilities by a commit-

These statements which the trust companies will furnish are not, at present, intended for publication. At the meeting it was resolved that hereafter all statements of averages, submitted to the Clearing House by members and non-members, must be verified and signed by an officer of the respective institutions.

Many of the trust companies of late have branched out and done an extensive banking The rule that no trust company can clear

through a member of the Clearing House unless it has been in existence for one year. will operate against all the recently organized companies that either have not already begun business or have not yet got Clearing House agents. In this category are the Morton Trust Company, formed to take over the business of Morton, Bliss A Co.; the Federal Trust Company, in which the Goulds are interested; the Bankers Trust organized largely by New York Stock Exchange men, to accept the presidency of which George W. Ely resigned the secretaryship of the Stock Exchange; the Central Healty Bond and Trust Company, the Merchange is the Central Trust Company, the Astor Trust Company, the Stan and Trust Company, the Century Trust Company and the Trust Company of Now York. These concerns will have to get along without Clearing House agents for the present. There are some old and important trust companies the have conducted their business quite satisfactor by to the mee ves without such agents. In this list are the United States Trust Company, the Central Trust Company and the Farmars Loan and Trust Company and the Jaw and the transferred to the Mechange Trust Company also that the local banks in doing a banking business. some of the trust companies that are in this list have not been in actual operation for a year, but the new rules of the Clearing House are not retroactive and their status is not affected. It is thought that ultimately the reports made by the trust companies may be published in the same way that the reterrs of not-member banks are now published. There has been much discussion in the financial district, particularly during periods of tight money, regarding the individual and aggregate resources of the trust companies. They have been talked of as the "unknown quantity" in the situation, but it is evident that the flearing Hause authorities at least will in the fluture its able to form a pretty good idea of how they stand.

THE PREDATORY HEN.

How a Neighborhood Grievance Was Redressed in Franklin Hill, N. J. BLOOMPIELD, N. J., Nov. 6. - Harry Hawthorne of Franklin Hill, so his neighbors say, has been letting his chickens roam at large, to the prejudice of the peace, comfort and good order the community. Repeated remonstrances, they allege, resulted in no amelioration of the conditions complained of, so some of the boys living near Hawthorne concluded to adopt other means of enforcing the sentiment of the aggrieved.

When Hawthorne's chickens went home to roost on Friday night their owner saw tags hanging out of their mouths, and a little investigation showed him that these tags were attached to strings which extended to the erops of the birds. Some of the insertp-tions on the tags were: "What is home without a broiler?" "Go scratch yourself," and "Go lay an egg." Passing over the comments which this state of affairs elicited from Hawthorne, it will be sufficient to say that it took long and patient effort to extract the cords from the threats of the chickens, that two of the fowl died during the process, and that a grain of corn was found on the other end of each cord. and that agrain of work, end of each cord. Hawthorne went to Justice Rapp in Newark and swore out warrants for the arrest of Frank Vreeland, Taylor Mahuffer, Roy Farrand and Vreeland, Manra for cruelty to aniquit. The

Remach Moore for crueity to animals. The case was heard on Saturday. The defendants were represented by Halsey M. Barrett, who succeeded in securing the acquittal of his subserved in securing the acquittal of his subserved.

AN EXTRA PARE APTER 1 A. M.

Brooklys Suburbanites Have a New Transit Grievance.

The traffic changes of the Brooklyn Rapid Transit Company which went into effect on Nov. 1 have caused so much indignation among persons living in the suburban districts of Brooklyn that mass meetings are now being arranged to protest against them. The transferring system alter 1 A.M. is the sause of much complaint. Passengers are compelled to pay an extra fare after changing from the surface to the elevanted railroad. The posted announcement in all of the care in operation says to pay an extra fare after changing from the surface to the devated rairoad. The posted announcement in all of the care in operation says that passengers will be transferred free at Thirty-sixth attree and Fith avenue and Sixty-fifth atreet and Third avenue. Freshiert Rossiter said yesterialy that no orders had from issued for the withdrawais of transfers after 1 A. M. and that transfers are to be given at all hours. According to the pussengers who are compelled to patronize the lines the fault is with the inspectors and ticket agents stationed at these transferring places.

DUKE OF CONNAUGHT'S WAR RECORD. Refusal to Let Him Go to South Africa

The refusal of the Queen and Lord Wolseley o allow the Duke of Connaught to accompany the army in South Africa in any capacity has recalled the incident with which he was connected at Tel-el-Kebir in the Egyptian campaign of 1882. In some quarters attempts were made to cast doubt on the Duke's personal courage, but he was not in any way responsible for what took place, and no one who had an opportunity of observing his conduct during that campaign entertained any doubt either as to his devotion to his duty or his pluck. He was simply a victim somely with a rule providing for an examination of their assets and liabilities by a committee of the association. Manager Sherer sent out yesterday afternoon a formal notice of this decision of the Clearing House Committee. The committee on Friday last adopted the following rules formulated by a sub-committee consisting of President Henry W. Cannon of the Clearing House Committee on Stating of President Henry W. Cannon of the Gallatin and President E. H. Perkins.

Jr., of the Immorter's and Traders':

"1.1) No trust company shall be permitted to clear through any member or non-member of this association, unless such trust company shall have been in actual operation for at least one year at the time of making the application.

of Command that any a greater tisk than it has brigade had remained in its original place in the formation of attack.

The incident however, decided the British army authorities that in future no members of the royal family near the throne should be allowed to hold command or run danger in battle. In addition to the anxiety for their personal safety in case of danger, they are an incumbrance on account of the special consideration with which they have to be treated. There is also a certain amount of professional lealousy at privileged persons occupying positions belonging by right to men who are passed over and so lose chances of earning distinction. In the case of the Duke of Connaught in Egypt, this was very much so, for it was up to that time a tradition in the Guards that only a Guardsman could command Guardsmen in the field; and the dissatisfaction his appointment to the command caused was very great.

Louely Death of Albert M. Payne, a Civil War Hero.

Albert M. Payne, to whom Congress awarded a medal for bravery in one of the engagements around Charleston, S. C., in the Civil War, was found dead in his home in an isolated place called Pantigo, between Easthampton and Amagansett, L. I., on Saturday by his twelve-year-old daughter. Suffering from wounds received during the war had made Mr. Payne an invalid for several years, and a few days ago his house was closed and his family were under the impression that he had gone to Montauk. His daughter had been sent on an errand to a neighboring farmhouse. She was told not to go near her home, as the family were all away, but she was seized with a desire to visit the house and so she discovered her father dead on a couch. His death was due to apopiexy.

Mr. Payne enlisted in Company H. Forty-eighth New York Volunteer Infantry and served until 1983, when he recalisted, and in 1884 was transferred to the Navy. MOLINEUI CASE SHIFTED AGAIN. District Attorney Gardiner Has It Sent Back to Be Tried Before Goff.

On the District Attorney's motion the case of Boland B. Molineux, charged with the murder of Mrs. Katherine J. Adams, was transferred again yesterday, this time from the calendar of the Supreme Court to that of the General Secsions, Part II., in which Recorder Goff is sitting. A week ago to-day the case was removed to the Supreme Court from General Sessions by Justice Fursman upon the District Attorney's Yesterday's order was granted, ex Denv & Rio G parts, by Justice Giegerich. The reason given by the District Attorney's office for the second transfer is that the witnesses in the case have been subporned to the General Sessions, and it would be necessary to serve them again; also, that Justice Pursman's calendar is too

FIRANCIAL AND COMMERCIAL,

MONDAY, NOV. 6. Considering that it was sandwiched between two holidays, the stock market made a very fair showing of activity and also developed a surprising degree of firmness. This last condition certainly not foreshedowed by Saturday's bank statement. That exhibit did influence th early trading and also the early money market. The first rates for call loans were 10 to 12 per cent. Fears that even higher rates might prevail later in the day intensified the seiling movement. It is to be noted however that the selling was not urgent and that much of It appeared to be by Board Room traders and professional operators. A considerable propor-

tion of it was obviously for short accoun The first factor that helped to change the tone of the market was the determined support ac corded Leather common. A member of the brok-erage house that has had the bulk of the buying orders in the stock offered at the opening to take all the stock in sight at the final price of Saturday, namely 56. Apprehensions of another demoralizing break in Leather were thus dispelled. The buying became more aggressive as the day advanced and resulted in a net advance of four points, through the final price was nearly a point below the highest recorded. The stock supplied nearly one-third of the total transactions

Leather preferred was, as for some time past, heavy on moderate dealings. It looks as if some holders were taking advantage of the furore ! the common stock to dispose of their shares. As a matter of fact, a large amount of the common has found its way into Wall Street during the last ten days or two weeks. Prices for it have been reached that many holders never expected to see and they are not slow in taking advantage of them. Nothing has yet developed to enlighten the Street as to the basis and purpose of the extraordinary dealings in the stock.

The other noteworthy transactions were in Southern Pacific Sugar Refining, Brooklyn Rapid Transit, Manhattan Rallway and Federal Steel common. The market for all of them was strong in the last half of the day, when the entire specu lation was favorably affected by a drop in call money rates to 6 per cent, and the development of a sudden burst of confidence in Republican vic-tories to-morrow. The professional element became eager to recover the stocks it sold in the morning and in consequence the closing was fairly animated and strong.

Food not Digested in the Stomach.

To-day. Last Week. Last Tear. 40,042 42,000 80,474 This Organ only Prepares it for Assimilation by the Intestines.

> Until a few months ago the medical profession, as well as the public at large, have always believed that food was digested in the stomach; but thanks to science, they are now enabled to follow the whole process of digestion with their own eyes from the moment food enters the mouth until it is taken into the sys-tem, or carried off through the bowels. Heretofore all remedies for the cure of dyspepsia have been given with the idea of assisting the stomach to digest food, and the discovery that this organ does not digest it at all explains the cause of their failure to cure the disease, and its constant increase in spite of the thousand and one remedies used. Another and equally important discovery was also made; that there are three distinct kinds of dyspepsia, two of which require different remedies, and the remedy for one must be exactly opposite to that of the other in character. For instance, acid dyspepsia requires an alkaline treatment; indigestion an acid treatment; these combined and given in one dose neutralize each other, consequently, cannot be given together with effect. The third and most dangerous of all (intestinal dyspepsia) requires a ger-micide which must be harmless, and yet strong enough to destroy the bacilli which cause the disease. Understanding this and knowing that they possess the only germicide which can be taken internally germicide which can be taken internally without injury (Hyomei), the R. T. Booth Company have placed on the market a dyspepsia cure, and the only one made which treats every phase of the disease separately. That it has been a success is shown by the fact that they guarantee it; something never done before, and agree to return the means in the control of the contro and agree to return the money if a cure is

MINISTERS DENGUNCE FIGHT. Methodists to Take Steps to Prevent Simi-

lar Exhibitions Here in the Future. The Methodist ministers at their meeting yesterday forenoon denounced the police and the municipal authorities for permitting the Sharkey-Jeffries prizefight to take place at Coney Island last week. As a result of the denunciatory addresses a committee was ap-pointed to draw up resolutions and present

nunciatory addresses a committee was neppointed to draw up resolutions and present
them at the meeting next Monday. This conmittee is composed of the Rev. J. W. Campbell,
the Rev. J. R. Thompson and the Rev. W. H.
Lawrence.

At the opening of the meeting the Rev. Mr.
Lawrence arose and spoke at length with
reference to the fight. He said that the
Methodisis ought to out themse ves on record
as protesting against exhibitions of such
brutaity. "It was a discrace." he said. "that
the city officials considered the affair in Coney
Island of so great public interest as to detail a
force of 400 policemen to attend it."

Several ministers endorsed this view of the
matter, and some of them urged that communication be held with the Governor. Others
insured that a protest be made to the Legislaure urging the repeal of the law allowing
ac-called "scientific exhibitions of bexing."
One minister said that if the "resolutions contained enough of hell-fire in them," it would
be all that was neces-sary to stir the community
in protest against prizefighting.

Bishow Thobusin was then introduced. He
urged in his sermon a repetition of Pentecostal efforts in modern religion. He prefaced
his remarks by saying that he was in sympathy with the action of the morning and added
